Do you know what it is to enjoy a good, square meal? Even if you feel like it, dare you satisfy your desire?
Digrestion is one of the most complex functions of the human body, yet it is, too, the most simple. Digrestion is simply the converting of food into a condition in which it can be added to the blood. When your system is overdone or run down. REXALL it can be added to the blood. When your system is overdone or run down, REXALL, ITSITETSIA TABLETS, which are really a digestive treatment, readily set things right. First, the gastric tablets increase secretion of gastric julces and saturate the food and stop formentation, and then, with the aid of the dyspensia tablets digestion goes on naturally—that's the whole secret.
